NATURE OF BUSINESS

Avnet Memec specialises in highly innovative suppliers and technologies, with the goal to help customers to differentiate their designs. Its areas of specialisation span from analog and microcontrollers to RF, datacom and networking. Avnet Memec operates as an independent business unit of Avnet Electronics Marketing EMEA, and it utilises the strengths of Avnet's backbone organisations – such as Avnet Supply Chain Solutions and Avnet Logistics. Hence, Avnet Memec can offer you first-class support and can also provide you with customised solutions for your requirements.
